2. Open GoodNotes and tap the + icon
3. Select "Import" and choose your file
4. GoodNotes creates a new notebook from the PDF

METHOD 02 / FILES APP

Using Notability or another PDF app? Import or share the PDF directly. Most annotation apps handle it the same way.

ONE THING WORTH KNOWING

Yours, year after year.

Your planner is undated, which means it never expires. Reimport the same file whenever you need a fresh start. No repurchasing. No new templates.

SAME FILE. REIMPORT WHEN YOU'RE READY.
